To.

The Private Secretary with the Dewan of Mysore,
Bangalore.

Dear Mr. Sundara Rau,

I thank you for your letter dated 15.8.25, and herewith enclose an application to the Government of His Highness the Maharajah of Mysore requesting a grant-in-aid for equipment for the London Mission Hospital in Chikballapur.

I shall be very much obliged to the Dewan of Mysore if he will have the kindness to support this application.

Yours sincerely,
T. T. Thomson.

LOCAL SELF GOVT. BRANCH

Sirs,

I have the honour to submit for favourable consideration, this application to the Government of His Highness the Maharajah of Mysore for a grant-in-aid for equipment for the Wardlaw Thompson Hospital of the London Mission in Chikballapur.

This is a General Hospital for men, women, and children, and contains departments for the treatment of all varieties of diseases. There are special wards for Maternity, Ophthalmic, Tubercular, Leper and private patients. It is equipped with the Xrays and Electric light plants- the special gifts of friends in England. It is a Charitable Institution affording free treatment, food and clothing to poor patients. The strength of this Hospital is 60 beds. The average daily number of poor In-patients is 30. Fees, thankofferings, and medicine charges are received from patients who are able to pay- according to their means.

In 1924 the number of Inpatients was 950, composed of 713 Hindus 139 Mahomedans, and 98 Christians. The number of new Out-patients was 9,728, and their attendance amounted to about 20,000. A very large majority of these patients belonged to the Hindu and Mahomedan communities. 247 major and 2370 minor operations were performed. The number of Maternity Inpatients was 48.

Of the annual expenditure on the Hospital General current account of about Rs 17500 nearly half is raised in India from fees, thankofferings, medicine charges and donations, the balance being made up by the Board of Directors in London and by subscriptions from friends in Britain and Australia.

Owing to increased cost of medical supplies, equipment and food and an increased salaries bill since the Great War the Hospital work has been carried on with an annually recurring deficit balance of about Rs 2400.

The London Missionary Society has financed its work through out the world with great difficulty since the War and in making good only part of this Hospital's deficit for the year 1924 sent out the follcwing instructions:- "The Directors felt that the balance of the deficit ought to be provided from fees and other local sources".

Every effort is being made by the Management to do so with out detriment to efficiency or hardship to the patients, and to effect economy wherever possible.

Since the War we have had to carry on without replacing or adding much necessary equipment (in the form of instruments, apparatus, furniture and medical stores) and a grant-in-aid of Rs 2000 (Rupees two thousand) from the Government of Mysore for this purpose would be of very great help to the Hospital at the present juncture, and be very highly appreciated.

I have the honour to be,

Sirs,

Your most obedient servant,

J. J. Thomson.
